

LITTER-FREE NEW HAMPSHIRE

The anti-litter program designed to help clean up highways, rural roads and public places.

Spring 2010

Dear Community Member

Spring is here again and many Litter Free New Hampshire communities and groups are organizing their annual spring clean-ups.

Not only do we provide "Blue Bags" free, but--as a bonus--daffodils, elm trees and lilac bushes are available to communities that do a serious clean-up each year. As a result of past "Litter Free New Hampshire" activities, some towns are seeing more than 2000 daffodils coming up this year and many communities have successfully placed young, strong elm trees on a local street!

We hope all Litter-Free New Hampshire participants will have great success this year. **Please remember that only communities that clean up the litter from a substantial portion of the town roads are eligible for the bonus** and only one bonus per community per year.

Enclosed are all the necessary forms to get started along with the 2010 Registration and Tally Sheets. We are looking forward to hearing from all of you by July 15th.

Please be advised that the location for the pick-up of Blue Bags will be at the Northeast Resource Recovery Association at 2101 Dover Road, Epsom, NH 03234. Please contact Lisa Wetmore at 669-9333 or email lisa@grocers.org for bag pick-up.

Sincerely,

Lisa Wetmore
Administrator, Litter Free NH
